

PUBLICATIONS INDEX

The index contains over 100 topics found in the library publications.

Instructions

1. Find the topic you are interested in.
2. Access the L4U database. In the blank area on the screen insert the topic name.
3. Search by keyword, subject, title or author*
4. A listing will be displayed. Double click on any item for more information.
5. If there are several publications of interest you may use the printer to get a hard copy of the listings.
6. The call number will identify the location in the library for the publication.
7. Follow the shelf signage to go to the correct location to find the call number and title.
8. Please check all books out with the librarian.

*NOTE:

You may search on other topics.

Keyword Search – The topic is referenced in the publication- Usually the greater number of publications but may not always be specific to your interest.

Subject Search – The publication is about that topic

Title – The topic is in the title of the publication

This list shows the number of books related to each topic either by keyword, subject or title.
